

COLD SHRINK SILICONE TUBE

- Resists UV, Ozone, fungus, acids and alkalis.
- Excellent weather resistance and waterproof sealing properties.
- Good thermal stability, no gaps under thermal expansion and contraction.
- Wide range of size, accommodates a wide range of cable, wire, conduit and hose diameters.
- Good aging resistant, retains its resiliency even after prolonged years of aging and exposure.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
